DETAILED ACTION

R sponse to Am ndment

1. The amendment filed 26 June 2003 (Paper No. 7) has been entered.
2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
3. Applicant's arguments filed 26 June 2003 (Paper No. 7), have been fully considered but they are not found persuasive.

Claim Rejections - 35 USC § 112

4. Claims 10-15 remains rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims recite or encompass the term "hybridize" or "standard hybridization conditions" whose metes and bounds are not clear because it is relative term without specific hybridization and wash conditions. Furthermore, DNA that hybridizes encompasses variants. It is suggested that specific hybridization conditions that is supported by the specification without adding new matter be incorporated into the claim limitations.

Art Unit: 1646

5. Claims 10-15 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Written description rejection.

Claims 10-15 encompass variants without structural limitation because of the term "hybridize". However, the specification only discloses working example of a specific species of TRIP. *University of California v. Eli Lilly and Co.* (CAFC) 43 USPQ2d 1398 held that a generic claim to human or mammalian when only the rat protein sequence was disclosed did not have written description in the specification. Thus, the disclosure does not have written description for the genus of variants of TRIP. One skilled in the art cannot envision the sequence of the other variants of the TRIP.

6. No claims are allowed.

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

Art Unit: 1646

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
